

NO NEW MCDOWELL

Dear Fellow Millcreek Residents and Taxpayers:

*This letter represents the objective concerns of the citizens and taxpayers of **No New McDowell**.*

OUR MISSION STATEMENT

*“We are **FOR** the repair, renovation, correction of defects, elimination of "critical or hazardous" situations and "some" educational/structural approach in the curriculum and to better utilize space for the students”*

*“We are **AGAINST** the financial mismanagement or fiscal irresponsibility of proposed project that do not provide a return-on-investment, are not necessary in light of the current economic/financial environment and are more of the "wants" than the "needs" of the students.”*

We are concerned about the future of McDowell High School, for the future students who will attend McDowell, the taxpayers who will take on the burden of the cost of the new school and its projections of being in the area of \$90 million to \$100 plus million dollars.

We want to get all the information that is available concerning this project out to those who have not had the opportunity to attend the Millcreek School Board meetings.

*Please consider joining our Facebook page, **No New McDowell** at <http://www.fb.com/no.mcdowell>. If you do not have access to the Internet, please talk to your family or neighbors who do. We believe it is imperative that the taxpayers know what is imminent and the long-term financial future for our community as well as our wallets.*

Also, please consider speaking out through our petition, found at: <http://www.ipetitions.com/petition/nonewmcdowell/>

Sincerely,

No New McDowell
